Portfolio : [My Portfolio](#)

Summary

Results-driven Data Analyst and Software Engineer with a strong passion for solving real-world problems through data-driven thinking and scalable digital solutions. Experienced in building impactful projects, analyzing complex datasets, and leading technical initiatives within student and professional communities. Active Microsoft Student Ambassador and HR Team Lead with proven leadership, communication, and collaboration skills, recognized for combining technical expertise, innovation, and team management to deliver meaningful results.

Education

New Mansoura University | Faculty of Computer Science and Engineering

Bachelor's in Computer Science | Expected Graduation: 2028

Experience

Digital Egypt Pioneers Initiative (DEPI)

Data Analysis Trainee (Training)

Aug 2025 – May 2026

- Performed data cleaning, exploratory data analysis (EDA), and reporting using real-world datasets.
- Built 5+ interactive dashboards using Power BI and Excel to support data-driven reporting and analysis.
- Wrote SQL queries for data extraction, transformation, and analysis.

Volunteering

Microsoft Learn Student Ambassadors

April 2026 – Present

New Ambassador then Associate (Beta) Ambassador

- Organized and delivered technical sessions on programming, cloud, and data-related technologies.
- Supported students in developing technical and professional skills.
- Built and expanded a strong technical community network.

Microsoft Student Club - NMU

November 2025 – Present

Head of HR Team

- Led the HR team and managed recruitment and interview processes.
- Improved internal communication and team engagement activities.
- Coordinated team operations and candidate evaluation workflows.

IEEE AI-Azhar

November 2023 – May 2024

Member

- Participated in 10+ technical workshops and community activities focused on engineering and technology.
- Collaborated with teams in technical and organizational activities.
- Developed teamwork and communication skills through volunteering activities.

Projects

SkillBridge

February 2026 – April 2026

Full Stack Freelance Marketplace

- Built a full-stack freelance marketplace with role-based authentication and admin dashboards.
- Developed 10+ RESTful API endpoints with JWT authentication and role-based authorization.
- Integrated SQL Server database and responsive frontend interfaces using modern web technologies.

- Analyzed 500+ survey responses and Kaggle records to identify trends related to screen time, sleep quality, and physical activity.
- Wrote SQL queries to extract and analyze datasets containing 10000+ records.
- Generated actionable insights promoting healthier digital habits and improved well-being.

Dictionary MS

C# Windows Forms Dictionary Application

October 2025 – December 2025

- Developed a Windows Forms dictionary application using C# and OOP principles.
- Implemented dynamic search and word management features to improve application usability and navigation.
- Applied object-oriented design concepts to improve application structure and usability.

Courses

Full Stack Development Training	October - 2025
Prepare Data for Analysis with Power BI	January - 2026
Python Programming Basics	November - 2025

Skills & abilities

Programming Languages

- Python, C#, JavaScript, SQL, C++

Frontend Development

- HTML5, CSS3, Tailwind CSS, Next.js

Backend & Databases

- Node.js, Express.js, PostgreSQL, Azure SQL, REST APIs

Data Analytics

- Power BI, Tableau, Pandas, NumPy, Excel, EDA

Tools & Concepts

- Git, GitHub, OOP, Data Analysis

Soft Skills

Leadership | Communication | Presentation | Teamwork | Problem Solving | HR Management
